

Neftali J. Lastor Bautista Katine

US Citizen in Dallas, TX | 254-337-1729 | neftalibautista1415@gmail.com | [linkedin.com/in/neftalibautista](https://www.linkedin.com/in/neftalibautista) | github.com/netflix2023

Education

- **Bachelor of Science in Artificial Intelligence** — University of North Texas (UNT) *Expected Graduation: Spring 2028*
- **Associate of Science in STEM** — Dallas College *Graduated: Summer 2026*

Projects & Leadership Experience

Lead Developer — RAG Campus Success Coach Chatbot

- Engineered an interactive web application utilizing artificial intelligence to help college students quickly navigate campus resources, degree roadmaps, and tutoring services.
- Architected an end-to-end Retrieval-Augmented Generation (RAG) pipeline in Python with vector database search to deliver verified answers from institutional documentation.
- Built a responsive, accessible full-stack user interface using HTML, CSS, JavaScript, TypeScript, and React, deployed on Vercel with Drizzle ORM and SQL storage for low-latency question answering.
- Deployed microservices to AWS and Modal cloud platforms using Git, GitHub, and Docker, ensuring high availability and low-latency API inference.
- Collaborated within an Agile team of 4 student engineers, conducting daily stand-ups and peer programming sessions.
- Actively incorporated architectural feedback and technical critique under the guidance of a PhD AI research mentor.
- Demonstrated and live-demoed the application before college department faculty and deans to showcase how agentic AI workflows improve student retention.

Creator & Developer — Land Value Estimator

- Programmed an automated property valuation application that analyzes vacant land parcel data and generates conceptual architectural layouts for real estate investors.
- Developed automated Agentic AI workflows in Python and integrated public GIS REST APIs to ingest municipal tax records and compute projected return-on-investment (ROI) metrics.

Smart Cities Engineering Intern — City of Irving & Dallas College

Irving, TX | February 2026 – May 2026

- Researched municipal data center regulations and local transit circulator options to assist city leadership in updating municipal planning policies.

- Presented technical research findings and policy recommendations directly to the Irving City Manager and public officials, communicating complex technical data clearly and concisely within a coordinated team.

President — Richland AI Club

Dallas, TX | August 2025 – Present

- Managed digital media and led technical workshops teaching students how to leverage modern artificial intelligence tools for software engineering and academic productivity.
- Conducted hands-on technical workshops on Agentic Coding, demonstrating AI development workflows with ChatGPT, Claude, GitHub Copilot, and Antigravity.
- Explained foundational artificial intelligence and machine learning concepts to non-technical students and beginner programmers to help them build their first web applications.
- Maintained the club's open-source GitHub repositories, reviewing pull requests, managing Git branches, and coaching peers using Agile workflow standards.
- Coordinated research preparation on decentralized asynchronous training clusters alongside academic advisors and STEM faculty leads.
- Organized workshops and community events to help students refine resumes, network, and strengthen core knowledge in C++ and Object Oriented Programming in Java for technical interviews.

Work History

- **Operations Associate (Picker / Packer)** — Amazon, Inc. (part-time) | *Dallas, TX | February 2023 – Present*
 - Processed high-volume customer orders alongside autonomous warehouse robotics and conveyance systems.
- **Material Handler** — Sanderson Farms | *Waco, TX | September 2022 – February 2023*
 - Sorted and packaged materials in high-volume production adhering to USDA safety and sanitation protocols.
- **Cabin Specialist** — ABM Industries, Inc. | *Irving, TX | March 2022 – September 2022*
- **Seasonal Fulfillment Associate** — Macy's Logistics | *Irving, TX | November 2021 – September 2022*
 - Picked, scanned, and packed direct-to-consumer orders during peak fulfillment volume.
- **Customer Service, Cook & Host** — IHOP & McDonald's | *Irving, TX | November 2020 – August 2021*
 - Managed POS transactions, customer service, and food preparation in fast-paced team environments.
